Slipping doesn't necessarily mean that your transmission is about to fail, but it is a signal that you should get it looked at by a repair shop.

Transmission Slipping: Causes & How to Fix

First, it is the lifeblood that enables a transmission to transfer power from the engine to the pavement. The torque converter uses ATF to form a hydraulic circuit in order to transfer rotational force from the engine to the transmission.. Its second purpose is to cool the transmission by absorbing the heat created by all its moving parts and expelling the heat through the radiator.
