The AIChE Annual Meeting is the premier educational forum for chemical engineers interested in innovation and professional growth. Academic and industry experts will cover wide range of topics relevant to

cutting-edge research, new technologies, and emerging growth areas in chemical engineering.

2017 AIChE Annual Meeting | AIChE

This chapter covers different types of chemical process diagrams, how these diagrams represent different scales of process views, one consistent method for drawing process flow diagrams, the information to be included in a process flow diagram, and the purpose of operator training simulators and recent advances in 3-D representation of different chemical processes.
