Thoracic Cancer Epidemiology in China. Thoracic cancers (lung cancer, breast cancer, esophageal cancer, etc.) are the most common cancers and the leading causes of cancer death in China. In this issue, the National Cancer Center of China released the epidemiological data on thoracic cancers in China, which could reflect the current status and trends of these cancers in China.

Thoracic Cancer - Wiley Online Library

In the last 10 years, lung cancer became the first cause of cancer-related deaths in both men and women in many countries. Evidence suggests that the development of lung cancer is different in women compared with men although smoking is also the first cause of lung cancer among women.
