Overview An integral role. Civil engineering is all about designing, building and maintaining things that can change the world. Roads, bridges, canals, dams and buildings have all played an integral role in how the human race has developed.

### **Civil Engineering - BEng (Hons) | London South Bank University**

In civil engineering, a cut or cutting is where soil or rock from a relative rise along a route is removed. The term is also used in river management to speed a waterway's flow by short-cutting a meander.. Cuts are typically used in road, rail, and canal construction to reduce the length and grade of a route. Cut and fill construction uses the spoils from cuts to fill in defiles to cost ...
