computational semantics an introduction pdf
"Computer metaphor" Computational theory of mind is not the same as the computer metaphor, comparing the mind to a modern-day digital computer. Computational theory just uses some of the same principles as those found in digital computing. While the computer metaphor draws an analogy between the mind as software and the brain as hardware, CTM is the claim that the mind is a computational system.

A denotational approach to program efficiency (pdf, bibtex) . Jennifer Hackett and Graham Hutton. In preparation, 2018. Improvement theory is an approach to reasoning about program efficiency that allows inequational proofs of improvement to be written in a similar manner to equational proofs of correctness.

1.4.1 Agents and Services. A Web service is an abstract notion that must be implemented by a concrete agent. (See Figure 1-1) The agent is the concrete piece of software or hardware that sends and receives messages, while the service is the resource characterized by the abstract set of functionality that is provided.
