The bystander effect, or bystander apathy, is a social psychological phenomenon in which individuals are less likely to offer help to a victim when other people are present. The greater the number of bystanders, the less likely it is that one of them will help. Several factors contribute to the bystander effect, including ambiguity, group cohesiveness, and diffusion of responsibility that ...

It's aggravating, because of all the gibberish that is crammed into the typical pre-flight safety demo, one of the most potentially valuable pieces of instruction is almost always missing: a warning on what to do or, more accurately, what not to do in an emergency evacuation. This should be a bold-print, high-emphasis item in any briefing, stated and loudly.
