Ethical Theories Definition: The Ethics is the branch of philosophy that deals with the principles of morality and the well-defined standards of right and wrong that prescribe the human character and conduct in terms of obligations, rights, rules, benefit to society, fairness, etc.

Ethical Theories - Business Jargons

There are many ethical theories that can be used to analyse situations in everyday life as well as hypothetical ethical dilemmas. It can be useful to look at the situation through the lens of several theories as the most ethical way forward will usually be judged as ethical by several different theories.

An Introduction to five ethical theories | awakengreen

Utilitarianism is a normative ethical theory. It is the most well-known and prevalent forms of consequentialism. Consequentialism is an umbrella term for a range of moral theories that state the rightness or wrongness of an action should be based solely on the results produced by that action. There have been many different forms of theory of a ...
