Types and documentation of credentials. A person holding a credential is usually given documentation or secret knowledge (e.g., a password or key) as proof of the credential. Sometimes this proof (or a copy of it) is held by a third, trusted party.

Credential - Wikipedia

Medical classification, or medical coding, is the process of transforming descriptions of medical diagnoses and procedures into universal medical code numbers. The diagnoses and procedures are usually taken from a variety of sources within the health care record, such as the transcription of the physician's notes, laboratory results, radiologic results, and other sources.

Medical classification - Wikipedia

Difference Between DRP and BCP Explained. The differences between Disaster Recovery Plans and Business Continuity Plans are not very clear in actual usage. Different companies sometimes use these terms differently and, at times, interchangeably. Technically the Business Continuity Plan (BCP) refers to the means by which loss of business may be avoided and it ought to define the business ...
