Human Resource Management Gary Dessler 14th edition pdf

Human capital is the stock of knowledge, habits, social and personality attributes, including creativity, embodied in the ability to perform labor so as to produce economic value. Human capital theory is closely associated with the study of human resources management as found in the practice of business administration and macroeconomics. The original idea of human capital can be traced back at ...

Human capital - Wikipedia

Human resource accounting is the process of identifying and reporting investments made in the human resources of an organization that are presently unaccounted for in the conventional accounting practices. It is an extension of standard accounting principles. Measuring the value of the human resources can assist organizations in accurately documenting their assets

Human resource accounting - Wikipedia

These characteristics of human capital prompted Harlan Cleveland, former President of the World Academy of Art and Science, to observe that "the only limits are the limits to imagination and creativity" (18). They led Aurelio Peccei, founder of the Club of Rome, to argue that human capital is the most underutilized of all forms of capital (19). ...
