It Success Towards A New Model For Information Technology

"Fifty years after the birth of corporate computing, IT today is still characterized by 50-70% project failure rates. Which is pretty scary when you come to think of it: either a goblin has cast a spell on a whole profession - or that profession is doing something fundamentally wrong."

Wiley: IT Success!: Towards a New Model for Information

IT Success! challenges the widespread assumption that an IT department is like a building con Which is pretty scary when you come to think of it: either a goblin has cast a spell on a whole profession - or that profession is doing something fundamentally wrong."
