An automated analyser is a medical laboratory instrument designed to measure different chemicals and other characteristics in a number of biological samples quickly, with minimal human assistance.

Automated analyser - Wikipedia

There are a variety of positions within a clinical laboratory, and roles are based on a career ladder of academic and technical milestones. Although terminology has changed slightly over time and may vary from location to location, the main elements to a clinical laboratory team include the laboratory director, technical and general supervisors, scientists/technologists, and technicians.

Medical Laboratory Professionals: Who's Who in the Lab

Introduction to Enzymes. The following has been excerpted from a very popular Worthington publication which was originally published in 1972 as the Manual of Clinical Enzyme Measurements.
