Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...

Introduction. Systematic approaches to performance management have been in place for some time within the Australian Public Service (APS). Indeed the Public Service Act 1999 (PS Act) explicitly refers to managing performance in the APS and provides the means for dealing with unsatisfactory performance

(referred to as underperformance in this guide). ...
