solve at your current level. But at least you get an idea of how the math you are learning can help solve actual real-world problems. Solving an Applied Problem First convert the problem into mathematics. This step is (usually) the most challenging part of an applied problem. If possible, start by drawing a picture.

6. Study 2-3 hours for every unit you are taking. It is recommended to study math 5-6 days each week in 1-2 hours blocks. 4 unit course x 2-3 hours of study per unit = 8-12 hours of studying each week 7. Identify your study times and mark them on your calendar. Study times should be treated as appointments, not as being optional. 8.
