Journal of The Franklin Institute - Elsevier

IEEE Transactions on Neural Networks is devoted to the science and technology of neural networks, which disclose significant technical knowledge, exploratory developments, and applications of neural networks from biology to software to hardware.. This Transactions ceased production in 2011. The current retitled publication is IEEE Transactions on Neural Networks and Learning Systems.

Using UAV-Based Systems to Monitor Air Pollution in Areas

1. Introduction. Advancement of societies, and in particular in their ability to sustain larger populations, are closely related to changes in the amount and type of energy available to satisfy human needs for nourishment and to perform work .Low access to energy is an aspect of poverty.

Airborne Wind Energy Systems: A review of the technologies

Introduction. There's now a FRENCH translation of this article in PDF. Thanks to Daniel Le Guern! This guide is intended to everyone interested in inertial MEMS (Micro-Electro-Mechanical Systems) sensors, in particular Accelerometers and Gyroscopes as well as combination IMU devices (Inertial Measurement Unit). Example IMU unit: Acc_Gyro_6DOF on top of MCU processing unit UsbThumb providing ...

A Guide To using IMU (Accelerometer and Gyroscope Devices

To secure uninterrupted distribution of electricity, effective monitoring and maintenance of power lines are needed. This literature review article aims to give a wide overview of the possibilities provided by modern remote sensing sensors in power line corridor surveys and to discuss the potential and limitations of different approaches.
