STRUCTURES OR WHY THINGS DON'T FALL DOWN : J. E. GORDON

For anyone who has ever wondered why suspension bridges don't collapse under eight lanes of traffic, how dams hold back-or give way under-thousands of gallons of water, or what principles guide the design of a skyscraper or a kangaroo, this book will ease your anxiety and answer your questions.

Structures Or Why Things Don't Fall Down (Penguin Science

A really interesting look at how engineers look at structures and materials, how the properties of different building materials influence the design, the practical considerations of various architectural styles, why things break and fall down. Author is an old British chap, writing in the 70s, who apparently really likes ships and greek mythology.
