The Ecology of Adaptive Radiation - GBV

Adaptive behavior (ecology) In behavioral ecology, an adaptive behavior is a behavior which contributes directly or indirectly to an individual's survival or reproductive success and is thus subject to the forces of

natural selection. Examples include favoring kin in altruistic behaviors, female selection of the most fit male,...

Adaptive behavior (ecology) - Wikipedia

The ecology of adaptive radiation in Darwin's finches by Luis Fernando De León Reyna Redpath Museum and Department of Biology Neotropical Environment Option McGill University Montreal, Quebec, Canada August, 2010 A thesis submitted to McGill University in partial fulfillment of the requirements for the degree of Doctor of Philosophy.

The ecology of adaptive radiation in Darwin's finches

adaptive capacity and vulnerability. It focuses on scholarship that contributes to practical implementation of adaptations at the community scale. In numerous social science fields, adaptations are considered as responses to risks associated with the interaction of environmental hazards and human vulnerability or adaptive capacity.

Adaptation, adaptive capacity and vulnerability

1.2 The Value of Biodiversity to Humans. Biodiversity is the foundation of a vast array of ecosystem services essential for human well-being (see Figure 2). 2 Ecosystems support all forms of life, moderate climates, filter water and air, conserve soil and nutrients and control pests.

Ecological Concepts, Principles and Applications to

In *The Ecology of Adaptive Radiation* the author re-evaluates the ecological theory, along with its most significant extensions and challenges, in the light of all the recent evidence. This important book is the first full exploration of the causes of adaptive radiation to be published for decades, written by one of the world's best young ...
